

IN-104 Interface Connection Diagram

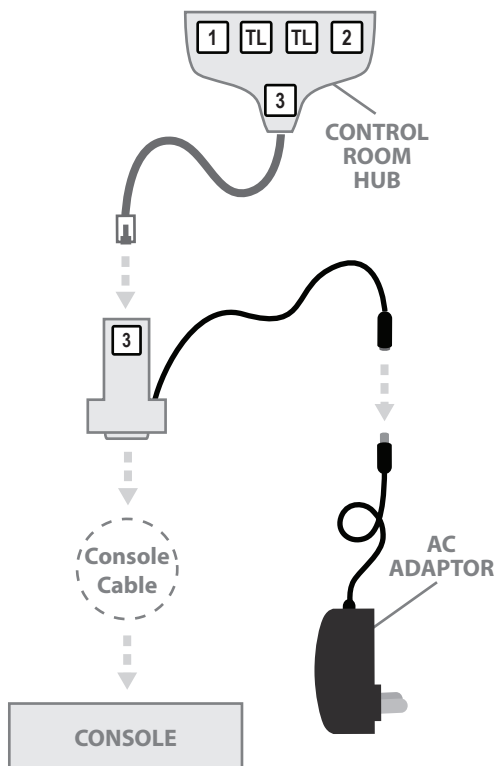

Rev 1.2 Latest Update: Dec, 2015 Copyright © 2015 by InSOFT, LLC

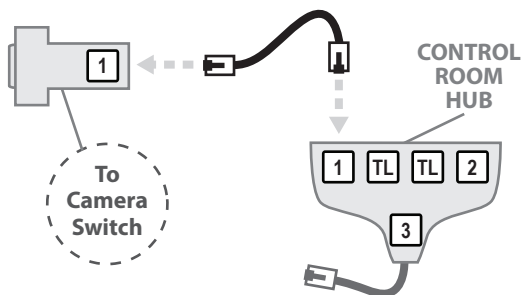

Important:

- All connections are numbered in pairs. Connect matching numbers together.
- Please note that all RJ45 connections are interchangeable, so you can relocate cables to suit your studio configuration.
- All Cat5e ethernet cables can be exchanged for longer cables to accommodate larger settings.

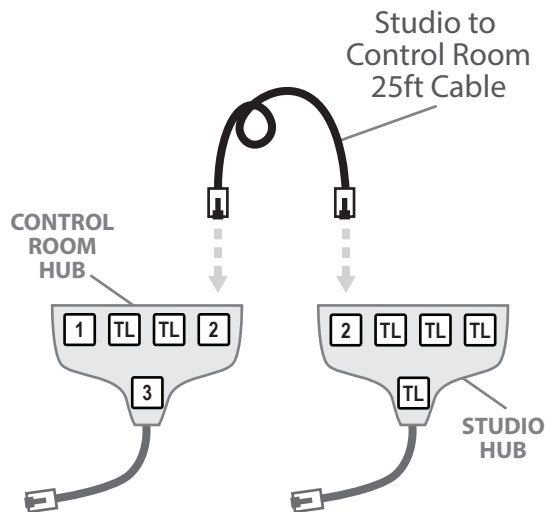

1) Connect Control Room Hub to Console and AC Power

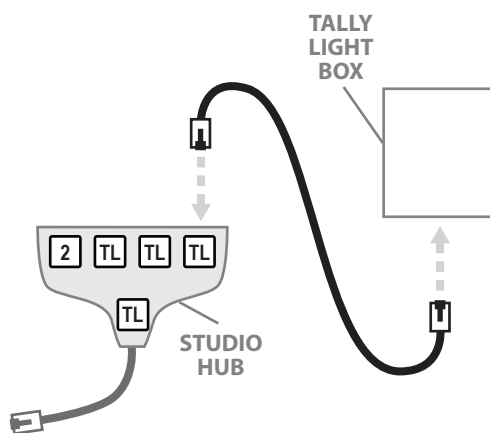

2) Connect Control Room Hub to Camera Switch

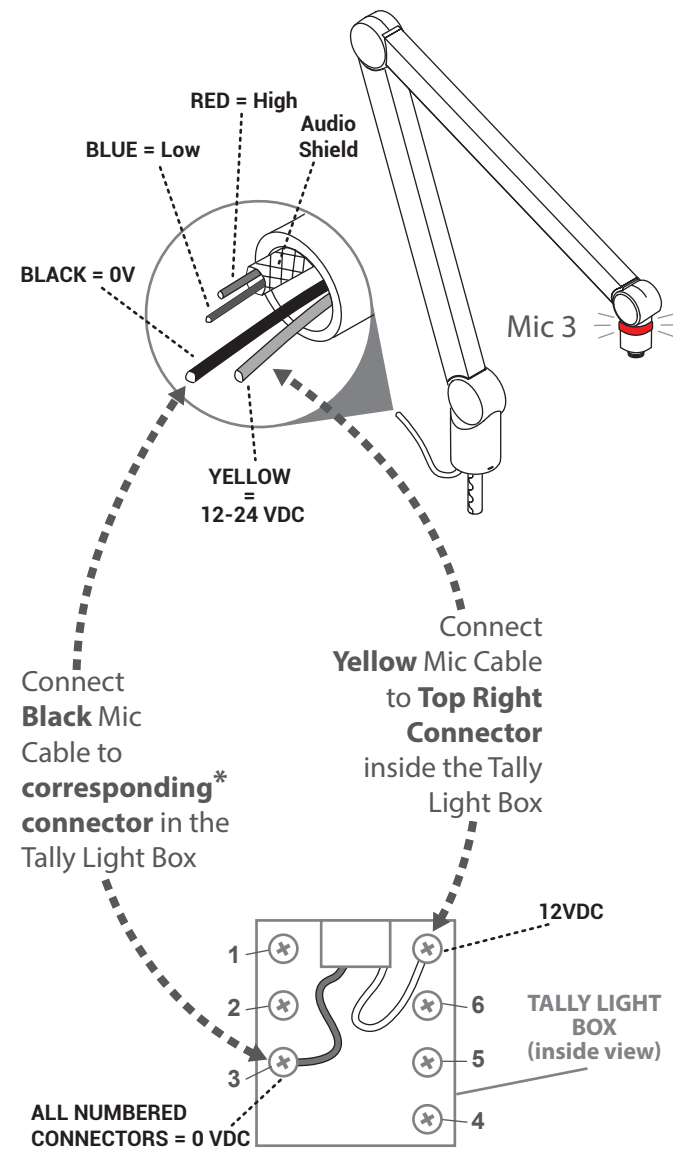

3) Connect Control Room Hub to Studio Hub

4) Connect all connectors labeled as 'TL' to Tally Light Boxes

5) Connect all Tally Light Boxes to Mic Tally Lights

* See label inside Tally Light Box Cover to choose a numbered connector according to Mic No.
